Enthusiastic and technically inclined undergraduate studying Computer Technology with a strong foundation in web development and software engineering, digital electronics, systems analysis, and programming. Reputed as a cooperative team member, innovative problem solver, and adaptive learner eager to acquire real-world experience.

EDUCATION

Multimedia University of Kenya

Expected 2027

Key Courses: OOP, Systems Analysis & Design, Digital Electronics, Data Structures & Algorithms, OS, Assembly, Web Development

- Firsthand experience with software development, hardware systems, and programming fundamentals through practical labs and academic projects

KCA University

Jan – Jul 2023

- Gained practical skills in front-end and back-end web technologies including HTML, CSS, JavaScript, and basic PHP

Dagoretti High School

Completed 2022

- Member of the ICT Club, actively participated in tech exhibitions and digital skills workshops

SKILLS

Programming Languages	Python, Java, C++, JavaScript, Visual Basic
Web Development	HTML, CSS, Bootstrap, Tailwind
Tools & Platforms	GitHub, AutoCAD, Windows/Linux OS
Software Design	OOP, UML Diagrams, Java Swing
Other	Team Collaboration, Adaptability, Report Writing

EXPERIENCE & TECHNICAL PROJECTS

IT Support Attaché — Context Expert Agencies

July 2025 – August 2025

- Assisted in the setup, configuration, and deployment of workstations, printers, and local area network (LAN) connections to ensure seamless daily operations
- Provided frontline IT support to end-users, troubleshooting hardware and software issues to minimize organizational downtime

Software & Systems Developer — Academic & Independent Projects

Sept 2023 – Present

- Network Security: Collaborated on the design and development of an Intrusion Detection System (IDS) class project, applying network security principles to monitor traffic and analyze potential vulnerabilities
- Application Development: Engineered "Splitter," a functional expense-sharing application, successfully implementing backend calculation logic and secure data handling
- Front-End Web Development: Designed, built, and deployed a personal portfolio website showcasing responsive layout design, clean user interfaces, and optimal performance across mobile and desktop devices

CERTIFICATIONS & TRAINING

- Web Design and Development
- Cisco NetAcad Summer Camp (Tracks: Programming, Network Design, and Artificial Intelligence)
- Fundamentals of Designing and Deploying Computer Networks (Organized by the Internet Society)

ADDITIONAL INFORMATION

- Enthusiastic about technology and problem-solving
- Enjoy playing badminton for fitness and mental focus
- Fluent in English and Swahili
- Active in tech forums and school clubs
- Effective communication and teamwork skills

REFEREES

Available upon request.
